Abstract

15

16 One or two sentences providing a **basic introduction** to the field, comprehensible to a
17 scientist in any discipline. Two to three sentences of **more detailed background**,
18 comprehensible to scientists in related disciplines. One sentence clearly stating the **general**
19 **problem** being addressed by this particular study. One sentence summarizing the main
20 result (with the words “**here we show**” or their equivalent). Two or three sentences
21 explaining what the **main result** reveals in direct comparison to what was thought to be
22 the case previously, or how the main result adds to previous knowledge. One or two
23 sentences to put the results into a more **general context**. Two or three sentences to
24 provide a **broader perspective**, readily comprehensible to a scientist in any discipline.

Methods

We report how we determined our sample size, all data exclusions (if any), all manipulations, and all measures in the study.

Participants

Material

Procedure

Data analysis

We used R (Version 4.0.3; R Core Team, 2020) and the R-packages *dplyr* (Version 1.0.2; Wickham et al., 2020), *extrafont* (Version 0.17; Winston Chang, 2014), *forcats*

(Version 0.5.0; Wickham, 2020a), *ggplot2* (Version 3.3.2; Wickham, 2016), *ggthemes* (Version 4.2.0; Arnold, 2019), *papaja* (Version 0.1.0.9997; Aust & Barth, 2020), *purrr* (Version 0.3.4; Henry & Wickham, 2020), *readr* (Version 1.3.1; Wickham, Hester, & Francois, 2018), *stringr* (Version 1.4.0; Wickham, 2019), *sysfonts* (Version 0.8.1; Qiu & See file AUTHORS for details., 2020), *tibble* (Version 3.0.3; Müller & Wickham, 2020), *tidyr* (Version 1.1.2; Wickham, 2020b), *tidyverse* (Version 1.3.0; Wickham, Averick, et al., 2019), *tvthemes* (Version 1.1.0; Nakagawara, 2019), and *xkcd* (Version 0.0.6; Torres-Manzanera, 2018) for all our analyses.

Results

Il y avait 15082 cas après avoir effacé tous les cas dont l'âge n'était pas assez précis pour cette image.

Discussion
